

A Cool Copenhagen Explosion

Who said February can't be cool in Copenhagen? It is indeed with the Wondercool festival bringing cultural warmth to the city. Seven brands have joined forces to make the month cool, cultural and somewhat crazy.

How does a shaken cocktail of fashion, design, gastronomy, art, music and architecture sound? In Copenhagen you can indulge in just that when the Wondercool festival fills the city and its cultural scene with good vibrations during February.

Nordic cooking with a piece of jazz, please

Different events will tempt the ears, delight the taste buds and indulge the aesthetic senses.

Visitors to Wondercool will have the chance to dig into nouveau Nordic cooking, which is bound to be a treat with the city being home to both the number one restaurant in the world, Noma, as well as best chef. During Wondercool February you can eat at some of Copenhagen's fine restaurants at reduced prices, so make sure to bring a healthy appetite.

You can also listen to cool jazz and rock from both the alternative and the established scene, indulge in world-class design and architecture, or become updated on cutting-edge art or the latest Danish fashion, often referred to as 'democratic fashion', being both wearable and affordable.

Cross-over events in unique settings

And it's both well-known successes and newcomers that have joined forces: The Copenhagen Jazz Festival, the Danish Design Centre, Danish Architecture Centre, the Copenhagen Fashion Festival, Copenhagen Cooking, rock festival FROST and Copenhagen Art Festival will all offer new, standalone events as well as joint events.

Events in Copenhagen are often held at unusual venues and the same will be true during Wondercool. So when you stroll through Copenhagen in February, you can expect an abundance of creative, cool and cultural people and events.

You can check out the Wondercool programme at www.wondercoolcopenhagen.com from December.
